EXPERIENCE

Full Stack Developer

Grids Apps LLC *Ramallah, Palestine* | May 2026 – Present

- Developed and enhanced responsive frontend interfaces for 4 production platforms using React.js, Next.js, JavaScript, HTML5, and CSS3, and .NET-integrated frontend views.
- Built and modified backend functionality on a .NET-based governance platform (Al-Hawkama), extending responsibility beyond the frontend to support full-stack feature delivery.
- Created reusable React.js and Next.js components used across 4 production platforms, improving UI consistency and reducing duplicate frontend development.
- Converted UI/UX designs and business requirements into responsive web pages supporting 3 device categories: desktop, tablet, and mobile.
- Integrated frontend interfaces with RESTful APIs and backend services across 4 production systems to display dynamic data and support user interactions.
- Diagnosed and resolved layout, form, navigation, responsiveness, and interaction issues across 3 screen-size categories.
- Managed code updates and feature changes for 4 active projects using Git and GitHub, supporting structured version control and team collaboration.

Technical Support Intern

Paltel Group *Nablus, Palestine* | January 2021 – January 2022

- Diagnosed and resolved 25–50 telecom service, connectivity, and technical support tickets daily via phone and in-person channels, independently closing over 90% of cases without escalation.

EDUCATION

Bachelor in Computer Engineering

An-Najah National University *Nablus, Palestine* | May 2026

PROJECTS

Dorosak Educational Platform

Improved UI/UX using React.js, Next.js, reusable components, and responsive design to enhance consistency across educational modules.

Al-Hawkama Governance Platform

Built and modified backend functionality on a .NET-based governance platform, and enhanced layouts, forms, navigation, and mobile responsiveness on the frontend to improve user experience and accessibility.

Ranaura QR Menu

Built a responsive digital restaurant menu platform using React.js/Next.js, enabling customers to browse categorized menu items via QR code with a clean, mobile-friendly user experience.

NexStock SaaS Landing Page

Developed and refined a bilingual SaaS landing page for a sales, inventory, accounting, HRM, eCommerce, and mobile app platform, focusing on responsive UI, RTL/LTR language support, brand consistency, and polished dashboard-style product previews.

SUMMARY

Full Stack Developer with hands-on experience developing and enhancing responsive web applications using React.js, Next.js, JavaScript, HTML5, and CSS3, plus backend development experience on a .NET-based governance platform. Contributed to four production platforms, including the Dorosak educational platform, the Al-Hawkama governance platform, the Ranaura QR Menu platform, and the NexStock SaaS landing page. Experienced in building reusable components, implementing UI/UX requirements, building and modifying backend functionality, integrating RESTful APIs, and resolving responsive layout and interaction issues across desktop, tablet, and mobile devices.

SKILLS

Frontend

HTML5 CSS3 JavaScript React.js Next.js
Bootstrap Material UI

UI Development

Responsive Web Design Mobile-First Development
